To
The Deputy Commissioner
Bangalore District

Sir

With reference to the
papers by us we have the honor to bring the following points
to your notice with the hope that after considering them you
will be pleased to sanction our proposals

I In Para II of the Condition the wording is not very
clear and we would suggest such an alteration as would
clearly shew that if during any month the duty on issues
did not come up to the guarantee of Rs 33333-5-4, yet
if the duty on extra sales during the previous months of the
same year made up such difficiency, no sum beyond
the duty on actual issues for that month shall be payed
by us

II In Para IV the cost of the distillery may be entered as
Rs 80-11-4 per month

III In the Extract of the Secretariats proceedings No 329-36
dated 17th April which has been forwarded to us, the lowest
limit of the quantity of liquor that is to be kept in stock
is fixed at 11000 gallons, this we would earnestly request
may be reduced to 7000 gallons which was I believe the
amount decided upon after careful consideration by Major
Maltby when acting as Deputy Superintendent here and which
as a matter of fact has been about what has been kept
in stock during the last fourteen months during which
time we think you have had very few grounds of Complaint
against us; We are doing our best to carry out our Contract
to the Satisfaction of Government and we feel confident
that Government will not see any necessity to interfere in petty matters
which although of little if any importance to them are matters
of considerable importance to us such as the following

1 the fixing the Strength of liquor to be kept in stock by us
2 the ordering that a certain number of days supply
must be kept ~~ready~~ tested and ready for issue
3 the ordering of a Register to be kept for supplying the 4d

Reply that what he wants cannot be done as it would involve a copy of each entry in the Contractors Register which is not done at present

Reply that terms will be settled in due course

Supervisor with the disparities of in the Complement of liquor distilled daily and the Causes of such disparities
4 The fixing of the Hour of 5 o'clock for stopping all distillation
5 The placing of a number of restrictions on our work on the Last day of each month,

We trust we may be excused if we state what we believe to be a fact namely that in no place in the Whole of the Madras Presidency has the Hd Supervisor the power of interference with the Govt Contractors that he apparently has or is about to have here in his duty in that Presidency is simply to test the liquor at the time of issue he cannot call upon the Government Contractors to explain to him why they have distilled so much or so little liquor any day and he can in no way interfere with the Contractors in the performance of their own business they like us guarantee a very large sum of money yearly to Government and they are allowed and we would suggest rightly allowed to manufacture the arrack in the manner they think best without being liable to be called upon by the Hd Supervisor to say a certain quantity of wort produced a certain quantity of spirit more or less than he considered it right to have been, the trouble and annoyance to the Contractors caused by these petty details which really do Government not the slightest good are not we think Known to Government and we would earnestly request that the Hd Supervisors authority & interfere with the working of our business inside the distillery be reduced to a minimum and that he may be instructed to allow us to manufacture the Arrack as we may consider best for our own interests as we have a very large amount at stake while he has nothing at all
